

BAKERS SECRET CATALOGUE 2017

In 1888 Edward Katzinger founded a commercial baking pan company in Chicago which became EKCO Housewares. In 1972 **Baker's Secret bakeware** was introduced by EKCO.

METAL BAKEWARE

Baker's Secret bakeware is the original non-stick bakeware, with decades of manufacturing experience designed into every pan.

Today the Baker's Secret coating has superior food release and is metal spatula and dishwasher safe. It also does not contain the controversial PFOA component which some research has linked to causing various cancers.

Baker's Secret is our signature range of quality home baking products, very affordable and widely available. It is also the most extensive range of metal bakeware items catering for the standard everyday pans as well as the more unique/ niche shapes.

The Baker's Secret range is available in a variety of shapes and sizes to satisfy all your baking needs, offering the consumer a quality home baking product at an affordable price.
