# It all started with a chopping board

**Twin brothers Antony and Richard Joseph grew up in a family with a long history of industrial glass manufacturing and engineering.**

The family business, started by their grandfather in 1936, originally produced everything from vehicle wing mirrors to fridge shelves. But eventually it diversified into making decorative glass chopping boards, illustrated with rustic scenes. When tastes changed and demand began to wane it was clear a fresh approach was needed.

Having both trained in product design, the brothers were now embarking on their early careers – Antony as a freelance product designer and Richard studying for a master's degree in design and manufacturing at Cambridge. When their father asked them to look at reinventing the glass chopping board range, they jumped at the chance.

After early success with their creative, colourful designs, their entrepreneurial spirit kicked in and in 2003 they decided to go it alone – and with that the Joseph Joseph brand was born.

Their big leap forward though came from a simple observation - many everyday objects can actually create problems for the user through poor design. In addition, many tasks around the home could be made much easier and more enjoyable with a little intelligent thinking.

From this light-bulb moment Antony and Richard knew they'd found a way to differentiate Joseph Joseph from other brands. And it set them on a path that was to create some truly iconic kitchenware.

There's something special about a Joseph Joseph product that sets it apart from the competition. First it engages you with its innovative design. Then it captivates you with its functional benefits. Finally, it assures you with its high quality materials and attention to detail.

## SwitchScale™ 2-in-1 digital scale with reversible lid

Designed by Morph  
Design registered

This multi-functional digital scale is a versatile kitchen device which offers two options for weighing. You can either place items or bowls directly on to its top, or flip over the integrated lid to create a measuring bowl for weighing loose ingredients or liquids. Featuring an easy-to-read back-lit LCD display and touch-

sensitive controls, it's ready to weigh both liquids and dry foods in the following units – gms, lbs, ozs, fl.ozs, mls up to a maximum capacity of 5kg. A convenient 'add and weigh' function allows multiple ingredients to be weighed during recipe preparation and an auto power-off feature maximises battery life.

## Tri-Peeler™ 3-in-1 vegetable peeler

Design registered

All your vegetable peelers in one handy, compact tool! Simply switch between blades to peel different types of vegetables. Tri-Peeler™ eliminates the need for several different vegetable peelers. It features three stainless steel blades – straight, julienne

and soft fruit – and an easy-grip, ergonomic handle. Easily switch between different blades by pressing the large button and then removing and rotating the head.

## Multi-Slice™ Multi-function cheese plane

Design registered

Perfect for cheese lovers, this stylish cheese plane incorporates two handy blades in one useful tool. Multi-Slice features two types of stainless steel blade in one. The main blade is perfect for slicing medium cheese - such as cheddar and emmental - and features an embossed surface

to prevent slices sticking. The secondary blade is much finer and therefore ideal for shaving hard cheese such as parmesan and topping salads and pastas. The design also features an ergonomic, easy-grip handle.

5028420200164

Extra Coarse

Ribbon

These versatile graters have been designed to adapt to different grating tasks and foods with ease. Firstly, they have two different styles of etched stainlesssteel blade set either side of its grating surface. Secondly, its handle has two different grating positions for maximum convenience.

With the handle locked in the straight position, it's ideal for grating directly over plates and dishes. But when you twist and lock

the handle 90° it creates a naturally sturdy shape for resting on the worktop, providing more support when grating larger quantities of food.

It comes with a reversible plastic sheath that protects the blades when stored but can be flipped to allow you to collect and measure grated food. Available in two colourways and blade configurations -

Coarse & Fine or Extra Coarse & Ribbon.

## Handi-Grate™ 2-in-1 mini grater/slicer

Design by Goodwin Hartshorn  
Design registered

Handi-Grate™  
**63802**  
BARCODE  
IN 4 OUT 12

5028420200485

The beautifully compact Handi-Grate mandoline has razor sharp stainless-steel blades, set either side of its design, for grating and slicing small foods such as garlic, ginger and mini vegetables.

The design features an ergonomic handle, a non-slip tip and a sliding finger-guard on one side for added safety when slicing. It also comes with its own protective sheath for safe storage. Dishwasher safe.

## Handi-Zest™ Mini zester with integrated blade wiper

Design by Goodwin Hartshorn  
Design registered

Handi-Zest™  
**63803**  
BARCODE  
IN 4 OUT 12

5028420200492

One of the problems with conventional zesters is that it can be tricky removing all that precious zest from their blades after grating. Handi-Zest, however, comes with its own mini blade wiper that neatly collects any remaining

zest from the back of the blade. Using the wiper, simply slide the zest along the length of the blade to the hole at the end where it can be easily removed.

## Scroll™ Silicone garlic peeler

Design by Goodwin Hartshorn  
Design registered

Easy-press™ - Green  
**20040X**  
BARCODE 5028420200409  
IN 12 OUT 48

Hate peeling garlic? This simple, silicone design peels garlic with quickly and easily by simply rolling the cloves inside. Simply insert whole cloves of garlic into the centre of Scroll™, place down on to the work surface and then roll several times backwards and forwards with the palm of your hand. Once the the crackling noise of the garlic peel

stops, then your garlic bulbs should be peel-free! The polished silicone surface inside quickly removes the garlic skin leaving perfectly skinned cloves ready for chopping or crushing. Unlike other silicone garlic peelers, Scroll™ can be completely unrolled which makes filling, emptying and cleaning much easier.

## Easy-press™ Easy-clean garlic press

Design by Goodwin Hartshorn  
Design registered

Easy-press™ - Green  
**20067**  
BARCODE 5028420200676  
IN 4 OUT 24

The unique, 2-piece design of this garlic press makes the task of crushing garlic cloves much easier and less messy. Like a conventional garlic press, whole cloves are forced through a pierced extruder plate by squeezing the two levers together. Unlike conventional presses the two levers can then be separated enabling the top one to be used as a handy scraping

tool for removing crushed garlic from the front of the extruder plate. The remaining skin or pulp can then be removed with the tip of the lever from the extruding chamber. The unit can be washed under running water where its cone-shaped holes prevent any remaining garlic pieces from being trapped. Dishwasher safe.

## Rocker™ Garlic crusher

Design by Goodwin Hartshorn  
Design registered

Rocker™ - Green Single Unit  
**20062X**  
BARCODE 5028420200621  
IN 4 OUT 24

By using downward pressure and a 'rocking' motion, this stylish tool breaks up garlic cloves quickly and easily, forcing the pieces up through the array of small holes in its base. The crushed pieces are then held in the curved design, allowing them to be spooned or

Rocker™ - Brushed Metal  
**95030**  
BARCODE 5028420950304  
IN 4 OUT 24

scraped conveniently into a pan or bowl. Additional cloves can also be crushed at this stage before emptying. Rocker™ is easy to clean under running water but is also dishwasher safe.

## QuickSnap™ Plus

### Easy-release ice-cube tray with stackable lid

Design by Graeme Davies  
Design registered  
Patent pending

Quick-Snap™ Plus - White/Green  
**42287**  
BARCODE 5028420200188  
IN 4 OUT 24

Similar in style to a conventional ice tray, this innovative design has a unique switch mechanism, which holds the ice cubes securely in place until required. When ice is needed, simply twist the tray

to loosen the cubes and then push each switch on the reverse, in the direction of the arrow, to release one ice cube at a time – effectively snapping each out of its individual compartment.

## Can-Do™

### Compact can opener

Design by Mark Sanders  
Design registered

Can-Do™  
**20005**  
BARCODE 5028420200058  
IN 6 OUT 36

Clever and compact, with an easy-twist handle, this pocket-sized device does away with the cumbersome handles and magnets of other can openers. With the first twist Can-Do™ attaches itself to the can lid and locks

into place, allowing you to open it using the easy-twist mechanism. It works equally well if you're left or right handed and the lid is released with a simple press of the button on the front. Wipe clean with a damp cloth.

## Gusto™

### Herb infusing spoon

Design registered

Infusing Spoon  
**20075**  
BARCODE 5028420200751  
IN 6 OUT 36

If you're making a soup, stew or curry and want to add herbs and spices such as cinnamon sticks, cardamom pods and star anise without fishing them out later, Gusto is the answer. Simply load the spoon with your herbs and spices, close the lid and stir in as you cook your meal. Then once you've finished

cooking, simply open the lid and throw away. Gusto is also perfect for flavouring pitchers of hot and cold drinks with herbs and spices. Gusto comes with an integrated herb stripper in the handle which quickly and easily removes the leaves from fresh herbs.

## Helix™ Citrus Juicer

Design registered

Helix™ Citrus Juicer  
20101X

BARCODE 5028420201017  
IN 4 OUT 24

The unique twisting mechanism of this smart citrus juicer means you get more squeezing power from less effort. Perfect for juicing lemons and limes!  
The innovative 2-piece design of Helix Citrus Juicer, makes squeezing citrus fruits simple.

Rather than having to apply lots of downwards pressure, the horizontal twisting mechanism makes it more comfortable to handle and utilises the power of the shoulders to make juicing effortless. Dishwasher safe.

## Helix™ Garlic Press

Design registered

Helix™ Garlic Press  
20102

BARCODE 5028420201024  
IN 4 OUT 24

Make short work of garlic cloves with this easy-to-use garlic press, its unique twisting mechanism allows you to press with more power from less effort.  
The innovative 2-piece design of Helix Garlic Press, makes crushing garlic cloves simple.

Rather than having to apply lots of downwards pressure, the horizontal twisting mechanism makes it more comfortable to handle and utilises the power of the shoulders to make pressing your garlic effortless.

## Glaze™ Refillable Silicone Pastry Brush

Glaze™  
Refillable Silicone Pastry Brush  
10150

BARCODE 5028420101508  
IN 4 OUT 24

Achieve a perfectly even glaze on your baking without the mess with our refillable pastry brush. Just add your egg or sugar wash and squeeze as you glaze!  
The clever design means you don't have to continually dip the brush into your mixture, avoiding drips on your work surface. It also stands upright between uses, so it doesn't

leave an egg wash mess when laid down. Glaze comes with two interchangeable heads- one for egg wash and the other for sugar glaze- and has flexible, silicone bristles making it hygienic, easy to clean and won't fall out into your food the way natural bristles do. Glaze is dishwasher safe and dismantles for easy cleaning.

## Elevate™ Kitchen Tools with integrated tool rests

Concept by Gillian Westley  
Designed by Derek Roberts  
Design registered

The Elevate™ range of kitchen tools has been specifically designed to improve hygiene and minimise the mess made by placing utensils onto kitchen surfaces during use. Each tool has an innovative, weighted handle with an integrated tool rest, ensuring that when an Elevate™ utensil is placed down, its head is always raised from the work surface. The Elevate™ range comprises a variety of

essential kitchen tools - including spoons, turners, tongs and spatulas - in a host of materials, but all now with heatresistant silicone handles. Tools with nylon heads are perfect for use with non-stick cookware and are heat-resistant up to 200°C/392°F. Those with silicone heads are heat-resistant up to 270°C/520°F.

### Elevate™ Silicone Carousel

- Elevate™ Technology improves hygiene & reduces mess
- Integrated tool rests prevent tool heads from touching the work surface
- Flexible silicone tool heads heat resistant up to 270°C/520°F
- Nylon handles heat resistant up to 200°C/392°F
- Tools suitable for all types of cookware
- Storage stand with non-slip base

# Storage

## Nest™ Lock

### Compact storage container sets

The problem with most storage containers is that they take up precious cupboard space when not in use and usually require the lids and bases to be stored separately - which make finding and pairing both elements a hassle. All this is solved though with the unique stacking design of Nest™ Lock as the container bases nest neatly inside each other and the lids clip conveniently together. As each element is colour-coded too, it's very easy to match lids with bases when you need them.

These multi-size sets are ideal for storing a variety of leftover food in the fridge or freezer, without the risk of leaks. All Nest™ Lock containers feature lockable, airtight and leakproof lids and are dishwasher, microwave & freezer safe, as well as being BPA free. All containers and lids also nest together, regardless of size, so you can mix and match to build a collection that perfectly suits your needs.

## Elevate™ Knives

Design registered

The Elevate™ range of kitchen tools has been specifically designed to improve hygiene and minimise the mess made by placing utensils onto kitchen surfaces during use.

Each tool has an innovative, weighted handle with an integrated tool rest, ensuring that

when an Elevate™ utensil is placed down, its head is always raised off of the work surface. Elevate™ Knives are all made from stainless steel and have non-stick, silicone-coated blades and comfortable, ergonomic handles. They are available individually with their own protective storage sheath or as a set of six with a stylish, rotating knife block.

## Rota™ Folding knife sharpener and honer

Design by Studio17 Design  
Design registered

The unique, swivelling design of this stylish knife sharpener provides two key features. Firstly, when opened out, it creates a safe, ergonomic handle to hold when sharpening. Then, when finished, the handle folds neatly away again, creating a compact unit that stores easily in a drawer. It has coarse and fine ceramic sharpening

wheels for maintaining knives with a variety of blade conditions from dull through to damaged edges. Non-slip feet on the base give added stability. Suitable for most types of stainless-steel knives. Not suitable for serrated or ceramic blades. Wipe clean with a damp cloth.

Holds 12 boards  
Reusable  
40 x 49 x 27  
(15¾ x 10¾ x 19¼ inches)  
**(MERC3881CB)**

Chop2Pot™ is our original, award-winning folding chopping board. Laid flat, it provides a durable, knife-friendly cutting surface for all types of food preparation. But when the handle is squeezed, the sides of the board fold up, forming a convenient chute down which chopped food or waste can be neatly guided.

This latest version of the design still employs the same proven 'living-hinge' technology to achieve its transformation, but also features a textured cutting surface, comfortable soft-grip handle and non-slip feet. Available in three sizes and a variety of colours. Dishwasher safe.

## Cut&Carve™ Plus

BARCODE 5028420600018  
IN 4 OUT 16

Cut&Carve™ Plus is the latest version of our popular double-sided, multi-function chopping board. It has an integrated meat grip on one side of the board, angled cutting surfaces and easy-pour corners, which help in the collection and disposal of liquids or food when cutting or carving. The opposite side of the board

provides a smooth cutting surface, for general food preparation, and it also has non-slip feet and soft-grip sides.

Dishwasher safe.

## Pop™ 3-piece chopping mat set

Design registered

This colourful set of chopping mats are perfect for preparing and chopping food, plus they conveniently snap together for easy storage. Each of the three chopping mats of Pop™ has a double-sided, knife-friendly cutting surface and is clearly colour-coded, making it easier to keep specific boards for specific types of food

to help reduce cross-contamination. Their flexibility means that they can be bent to direct chopped food into a pan or food waste into a bin. The 'hole' detail is designed to allow all the boards to be joined by simply pushing together, and it also provides the perfect hanging point.

# Cleaning & Organisation

## Easy-Tear™ Kitchen roll holder with tearing blade

Design by Goodwin Hartshorn  
Design registered

This innovative product makes the task of tearing off paper towels much easier, particularly one handed. The design incorporates an upright tearing blade that provides a convenient edge against which to tear and its heavyweight, non-slip base provides added stability and excellent resistance when each sheet is pulled. Its self-

adjusting mechanism fits a variety of kitchen roll sizes and ensures the roll is always held securely in place no matter how many sheets are left. The top of the tearing blade also provides a convenient carrying point, so the unit can be easily transported to wherever paper towels are required. Wipe clean with a damp cloth.

## Caddy™ Tower Slimline sink tidy

Design registered

This slimline caddy is perfect for fitting in those tight, narrow spaces between the sink and the wall for those who like to be organised but are short of space in the kitchen. Caddy™ Tower has ample space for storing a washing-up liquid bottle, brush and multiple

sponges, making the most of the space you do have around your sink. It features an integrated spout which allows water to drain directly into the sink and the entire unit can be dismantled for easy cleaning.

## Sink Pod™ Compact in-sink tidy

Design registered

This compact sink tidy wraps neatly over the edge of the sink to let excess water or soap drain easily away- perfect if you're short on space around the sink. Sink Pod™ fits neatly over the side of your sink to maximise the space you do have in

the kitchen. It has plenty of room to fit two sponges or a sponge and a brush and can be dismantled for easy cleaning. Three strong suckers keep the in-sink caddy securely in place as you wash up.

## Caddy™ Sink Tidy

Design by Studio17 Design  
Design registered

Caddy™ - Dark Grey/Grey  
**20023**  
BARCODE 5028420850222  
IN 4 OUT 12

The washing up has never been so organised, with this highly practical design. The main body of the unit provides ample space for storing a washing-up liquid bottle and brush, and the integrated rail provides hanging and drying space for damp dishcloths.

A large draining plate within the base creates a dedicated area for placing wet sponges, and the concealed reservoir beneath the unit collects any drained water ready for disposal. The entire unit can be dismantled for easy cleaning. Dishwasher safe.

## Caddy™ Large Large Sink Tidy

Design by Studio17 Design  
Design registered

Caddy™ - Dark Grey/Grey  
**85070**  
BARCODE 5028420850703  
IN 4 OUT 12

This large sink caddy boasts even more space than our regular-sized Caddy to store all your washing-up liquid, sponges, washing brushes and dishcloths neatly beside your kitchen sink. Caddy Large is the ultimate kitchen sink tidy for organising your washingup essentials in one handy place. Like

the regular-sized version, Caddy Large also has room for all your washing-up essentials and comes with an even larger draining plate to catch all excess water residue from your sponges and cloths. The entire unit can be dismantled for cleaning and can be used in the dishwasher.

## Sinkbase™ Utensil pot with dividers

Design registered

IN 2 OUT 4

Extend™ - Black/Grey  
**85040**  
BARCODE 5028420850406  
IN 2 OUT 4

This versatile dishrack allows you to quickly and easily expand your draining space. When required it can be extended to almost twice its size to accommodate the washing up after either single- or family-sized meals. An integrated spout helps to drain away any excess water, but this can be rotated away and

closed trapping water inside for draining later. This means that Extend™ can also be used to create draining space almost anywhere. A moveable cutlery drainer allows for flexible use and non-slip feet to ensure that, wherever it's used, the unit will be secure and stable. The steel rack can be removed for easy cleaning.

## Flip-up™ Draining Board - Grey

Design registered

- Flip up plate rack holds up to 6 dinner plates
- Plate rack locks into place for stability
- Slim compact storage easy to stow away when not needed.

- Draining spout channels excess water straight into sink
- Non-slip feet ensures stability even on wet surfaces

Design registered

Keep your toilet clean and hygienic with our revolutionary Flex™ toilet brush. Its unique, D-shaped flexible head is designed to get into all those hard to reach areas and its bristles are widely spaced to prevent dirt clogging. Conventional toilet brushes hold dirt and

liquid, making them messy and unhygienic to use and clean. It has widely spaced bristles that prevent dirt clogging, allowing liquid to drain quickly and minimising drips between cleaning and storing. It also has durable bristles and comes with a slimline holder for neat storage.

## Flex™ Plus Toilet brush with storage caddy

Design registered

Conventional toilet brushes hold dirt and liquid, making them messy and unhygienic to use and clean. Flex™ is a revolutionary toilet brush designed to solve all these problems. It features a flexible, D-shaped head that reaches

all areas, even under the rim. It has widely spaced bristles that prevent dirt clogging, allow liquid to drain quickly and are more durable than conventional-style bristles.

## EasyStore™

### Standing toilet paper holder

Design registered

Flex Steel Toilet Brush  
**70518**  
BARCODE 5028420705188  
IN 2 OUT 4

This freestanding toilet paper holder provides space for storing up to 4 toilet rolls and features a clever dual-purpose shelf. The stainless-steel top provides a convenient surface for placing small items, such as a

mobile phone or book, whilst the curved base conceals a secret storage compartment that's perfect for keeping sanitary items conveniently within reach and discretely out of sight.

## Split™ Steel Recycler Bin

### Waste separation bin

Design registered

Split Steel Recycler Bin  
**70520X**  
BARCODE 5028420705201  
IN 1 OUT 2

Many bathrooms and bedrooms have limited space so having a separate bin just for recycling is rarely an option. Split™ 6 Steel provides the perfect solution as it's divided into two compartments, allowing you to

separate recyclable and non-recyclable waste within one compact design. The unit features hands-free pedal opening, soft-close lids and a fingerprint-proof stainless-steel body.

# Waste Disposal

## Totem™ Intelligent waste system

Design registered

Introducing a completely new category for Joseph Joseph, specifically created to cater to the various waste and recycling needs of modern life.  
The first product in this innovative new

category is Totem, a unique range of waste separation and recycling units. Occupying the same space as a conventional kitchen bin, Totem offers many more functions without compromising on capacity.

# Titan™ Trash compactor

Design registered

Titan is an innovative waste solution with a patented, hygienic compaction system. This allows it to hold up to three times more than a similar-sized household bin. Compacting your rubbish means you empty your bin less

often and use fewer liners. Titan also features an anti-tear design that won't stretch or pinch the liner and a replaceable odour filter to neutralise any unpleasant smells.

## Stack 4™ Foodwaste caddy with odour filter

Design registered

Stack™ 4  
**30016**

BARCODE 5028420300161  
IN 2 OUT 8

This clever food caddy has been carefully designed to help reduce the smell from collected food waste. It has a unique, ventilated design that allows air to enter

and circulate inside the caddy, which helps to reduce moisture - the main cause of unpleasant odours from decomposing food.
