**OXO began with a few simple questions:
Why do ordinary kitchen tools hurt your hands?
Why can't there be wonderfully comfortable
tools that are easy to use?**

The man who asked these questions was Sam Farber, an entrepreneur in the housewares industry. Noticing that his wife Betsey was having difficulty gripping ordinary kitchen tools due to a slight case of arthritis in her hands, he saw an opportunity to create more comfortable cooking tools that would benefit all users.

After hundreds of models, dozens of design iterations, and extensive research, OXO was born. In 1990, the first group of 15 OXO Good Grips kitchen tools was introduced to the U.S. market. These ergonomically-designed, transgenerational tools set a new standard for the industry and raised the bar of consumer expectation for comfort and performance.

Today, OXO offers over 850 products covering many areas of the home. Each was developed based on the concept of Universal Design (also known as Inclusive Design), a philosophy of making products that are usable by as many people as possible. The concept of Universal Design makes room for all users by taking as many needs as possible into consideration in the design process. For OXO, it means designing products for young and old, male and female, left- and right-handed and many with special needs. Today, OXO is recognized globally by many prestigious institutions, including Harvard Business School and the Royal College of Arts, as an example of how a well-executed Universal Design philosophy not only creates products that are beneficial to end users but is a sensible business model.

Today, OXO continues to be dedicated to providing innovative solutions that ease everyday tasks.

Thoughtfully yours,

OXO

OXO - SLICERS, GRATERS & CHOPPERS

NEW -
DUE
MID SEPT

11240100

Good Grips Non-Stick Cheese Plane

- Cheese Plane has a sharp, angled, blade to yield thin, even slices. The flexible spring-steel head lets you slice at any angle. The soft, comfortable handle won't slip as you slice, and is tapered for an elegant look in the kitchen or on the cheese board.

greensaver™

ACTIVATED CARBON SYSTEM

ABSORBS ETHYLENE GAS

Carbon filters are filled with nooks and crannies that trap and absorb ethylene gas, slowing down spoilage and keeping fruits and vegetables fresh longer. They are made from coconut husks, making them safe, all-natural, and non-toxic!

PROMOTES AIRFLOW

The elevated basket lifts produce up and away from the bottom and sides of the container to prevent rotting, and can be removed to be used as a colander.

CONTROLS HUMIDITY

The vent on top of each Produce Keeper slides open and closed to maintain optimum humidity levels for different types of produce, keeping them crisp and fresh.

OXO - GREENSAVER

11139900

Good Grips GreenSaver 1.6qt

- Activated carbon filter absorbs ethylene gas, is all-natural and made from coconuts
- Sliding date indicator keeps track of when it's time to replace the carbon filter
- Elevated basket promotes airflow to prevent rotting, and can be removed to be used as a colander
- Adjustable vent slides open and closed for optimal humidity levels for different types of produce
- Chart on bottom of vent shows whether to keep the vent open or closed for popular fruits and vegetables
- 1.6qt/1.5L capacity perfect for a pint of berries, grapes and other small fruits and vegetables
- 1 filter included

OXO - COOKWARE

OXO IS DEDICATED TO CREATING INNOVATIVE CONSUMER PRODUCTS THAT MAKE EVERYDAY LIVING EASIER

It drives us to study every element of how a person interacts with a tool, from how it is held and how it is used, to how it is cared for. We applied the same rigorous attention to detail when creating our Non-Stick Cookware. It features a German-engineered, PFOA-free, 3 layer Non-Stick coating, Magneto™ Induction Technology, soft non-slip Silicone handles, rounded bottoms that facilitate stirring and durable finishes that are easy to clean.

Thoughtful design, professional-grade materials, and quality you can see and taste are guaranteed to help you accomplish culinary feats for years to come.

Angled side walls help liquids evaporate quickly and rounded bottoms facilitate efficient stirring

3 layers of German-Engineered, PFOA-free, Non-Stick coating provides years of effortless food release using less oil

The handles are made of cast Stainless Steel for durability and wrapped in heat resistant Silicone for a comfortable non-slip grip

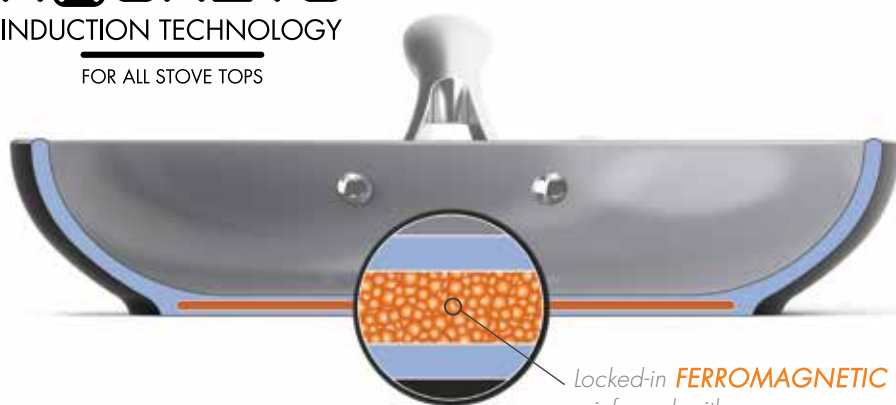

INDUCTION TECHNOLOGY

Unique magnetic coating on base guarantees superior heat transfer on all hobs

At OXO, our goal is to design products that make everyday living easier, which is why we spent years developing a way to optimise our cookware not only for induction hobs but also for gas, electric, halogen and ceramic.

The entire Non-Stick line is equipped with our patented, innovative Magneto™ technology, which provides quick and even heat distribution regardless of the type of hob. Magnetic particles are fused directly onto the base of the pan, making it lightweight, minimising the risk of warping and providing more consistent contact with the heat source to guarantee even cooking.

MAGNETO™
