

Updated: August 2019

No kitchen is complete without **PYREX®** glassware. Offering kitchen glassware characterised by clean design, endless versatility and excellent quality since 1915, **PYREX®** today is a household name.

Unlike earthenware, porcelain or enamelled dishes, PYREX® glass absorbs, rather than reflects heat waves in the oven. This speeds up the cooking process and saves energy. The specific attributes of PYREX® glass that were important back in 1915 when PYREX® glass was given a domestic application, are still important to consumers today:

- Ideal for use in oven, microwave, fridge and freezer
- Bake, serve and store in the same dish
- Does not stain or retain food odours
- Easy to clean and dishwasher safe
- Long-lasting durability

Today the PYREX® glass range is vast; comprising a highly recognisable food prep range which includes the popular measuring jug and mixing bowl in various sizes, glass bakeware and an extensive range of glass storage in an array of sizes and shapes

PYREX® PREPWARE

Any great meal starts with great preparation – the right tools in the hands of someone who knows how to use them. When you think of those tools, think of PYREX® prepware. As the #1 measuring cup brand, it's a kitchen icon that has not only stood the test of time, but set the standard in prepware for nearly a century. Use PYREX® glassware – from measuring cups to mixing bowls – and you're using prepware that inspires confidence. Limited two year warranty

PYREX® GLASS BAKEWARE

PYREX® glass bakeware is a must have for any serious kitchen. Available in an array of functional shapes and sizes, each individual piece can be used for baking, cooking, microwaving, serving, and storage. Limited two year warranty

PYREX® GLASS STORAGE

The versatility of PYREX® glassware extends to storage dishes in an array of convenient, stackable sizes with plastic lids for safe-keeping. Better yet, those same storage dishes are perfect for reheating and serving, since they're resistant to both heat and cold. Compared to the plastic counterparts, PYREX® glass storage dishes do not stain or retain food colours, tastes or odours.

MEASURING JUGS

1 Cup / 250ml Measuring Jug
CODE: 6001074 **BARCODE:** 071160010741
