*Tasteful  
ingenuity*

## Tasteful Ingenuity

Inspiration can come at any time. When we're surrounded by good food and great design, ideas just come. At Chef'n, we're compelled to chase ideas that come to us in the middle of the night, drawing and prototyping until we discover true innovation. Sometimes the ideas lead nowhere and all we're left with is a funny story. Sometimes, success.

We all spend time in the kitchen, whether we're just making popcorn or cooking a holiday meal. At Chef'n, it's our job to make that time productive and fun.

Creating unique everyday experiences in the kitchen is what we're all about. Count on us to bring creativity and colour to cooking and to make kitchen tools that work for you.

## Design Team

All of our products are designed in-house in our top-secret lab, by a creative bunch of Industrial Designers. Without them, we would have a few very questionable products to call our own. The team is also packed with a talented bunch of right- and left-brained people to get the job done in Seattle.
