Introducing Leifheit:

Tradition and innovation go hand in hand at Leifheit

When Ingeborg and Günter Leifheit founded their company in 1959, they had a clear vision: "More freedom with Leifheit". The household products they aimed to make people's housework easier. And with time saved, they therefore then had more free time to enjoy the finer things in life. Even today, Leifheit has not changed this belief. Whether it's a multi-functional ironing board, a window vacuum cleaner or floor cleaning system - Leifheit's numerous innovations have made the daily necessities to do housework with more intelligent and efficient, making housework not only faster, but above all, more enjoyable.

Duster XL

Dust-free in a few seconds: The Duster XL is child's play, because it absorbs even finest dust like a magnet. The anti-static, super-tight micro fibres absorb dust and prevents dust particles from whirling up and settling in another place. The stroke-soft fibres glide into every crack and crevice. They clean houseplants as well as bookshelves and Venetian blinds. Over extremely sensitive surfaces like computer and television screens Duster XL glides softly and carefully. Duster XL has an extra large cleaning surface of 38 cm, which is ideal for the cleaning of large and smooth surfaces like tables or screens. The handle enables the use of the Leifheit Click-System with telescopic function for the use of the Duster even in distant corners. Comes with a hanging loop for practical storage.
