POWDER COATED ALUMINIUM

Durable and hard-wearing, powder coating uses dry powder that is heat cured to create a resilient outer shell. Providing exceptional wear capabilities, long-lasting powder coating is available in satin, black and brass.

HAMMERED & LIGHTWEIGHT

The subtle indentations of these hammered finish products provide a distinctive artisanal texture. Hand-hammered, each of these items are unique, and are lightweight, making service easy and safe.

HAND WASH & FOOD SAFE

Non-porous and hygienic, our Food Safe products are resistant from rust and corrosion. We recommend hand washing these products to maintain their patina and prolong their life.
