NEW! INSTANT INFUSION BREW PLUS

12 Cup

We're curing coffee cravings one perfectly programmed brew at a time. The Instant® Infusion Brew Plus 12-cup Coffee Maker quickly brews a full carafe of your favourite filtered ground coffee, made just how you love it.

Packed with premium features and customisations, Instant® Infusion Brew Plus is designed to help you program coffee your way, any time of day, at the touch of a button. The innovative shower head and pre-infuse technology soaks coffee grounds evenly to extract deeper flavour for optimum taste. A large, removable water reservoir makes refills and cleanup a breeze, plus an integrated carbon water filter delivers pure coffeehouse results. Choose between 2 brew strengths — classic or bold — or small batch brew 1-4 cups to reduce waste and amp up taste. An adjustable warming plate keeps your freshly brewed coffee hot for up to 4 hours with 3 temp options. A 24-hour timer lets you set up auto-brew before bed for a hot cup in the morning.

- Fast Brewing: Brews 12 cups of your favourite ground coffee in under 10 minutes.
- Best flavour: Showerhead dispenser with pre-infuse technology soaks coffee grounds evenly to extract deeper flavour.
- Easy to fill: Removable 1.8L water reservoir makes refills easy and mess free
- Adjustable Brew Strength: Choose from 2 different strengths for the perfect classic or bold brew.
- Programmable convenience: 24-hour timer lets you set your coffee at night for a hot cup ready in the morning.
- Adjustable Warming: Warming plate keeps coffee hot for up to 4 hours with three temperature settings to choose from.
- Filtered Water: Integrated carbon filter ensures superior taste every time
- Small Batch Brew: Conveniently brew 1 to 4 cups for maximum flexibility, less waste and full flavour
- Easy to Clean: Reusable gold-tone filter and removable glass reservoir make cleanup easy, plus reminders that let you know it's time to clean.
- Sleeker Design: Easy-to-use LED touchscreen, premium chrome finishes and sound alerts.

NEW! INSTANT MAGICFROTH™ 9-IN-1

DUE APRIL

This 9-in-1 milk frother & specialty drink maker lets you create at-home barista style café beverages.

- All-in-one functionality: adjustable temperature and froth level including cold, warm and hot functions to create a personalised frothy cup.
- Be your own barista: froth up multiple kinds of cold and warm milk foam from light and silky to thick and rich, transforming everyday coffee into coffeehouse-style creations like cappuccinos, lattes, iced coffees and cold brews.
- Large capacity: removable 500ml stainless steel pitcher with removable lid lets you froth up to 250ml or heat up to two 230ml cups of milk at a time.
- More than a frother: whip up hot and cold milk, and water-based beverages. Quickly warm up milk without foam to add a creamy finish to coffee, or make non-coffee drinks like hot chocolate, matcha and more
- Versatile stir function: create rich-tasting hot cocoa or cold chocolate milk using powders or chocolate chips, pieces and chunks
- 9-in-1 custom programs: create customised specialty drinks in seconds with 3 temperature settings (Cold, Warm & Hot) and 3 different froth levels (Stir, Foam & Extra Foam) for up to 9 program combinations.
- Easy to use: Simplified control interface with 4 buttons and a large display to easily monitor while in use vs traditional tall-sized frother units
- Quick cleanup: detachable, dishwasher-safe stainless steel

NEW! INSTANT FAST COLD BREWER

12 Cup

DUE APRIL

The Instant® Cold Brewer lets you make true cold brew at home, in under 20 minutes.* The unique FlashExtract™ technology produces cold brew without the heat and without the overnight wait.

You can use your favourite ground coffee, and customise the brew strength to your own taste. If you're an iced tea fan, you can use loose tea leaves to make delicious iced tea in minutes. The removable glass pitcher holds up to 945ml for brewing, serving and storing, and is dishwasher safe for easy cleaning. Skip the line at the coffee shop and enjoy your own cold brew without leaving home.

*Compared to traditional 24-hour cold brewing

- Make true cold brew in under 20 minutes*
*Compared to traditional 24-hour cold brewing
- FlashExtract™ delivers true cold brew without heating and without the wait
- Use your own favourite ground coffee
- Customize brew strength to your taste
- Brews iced tea in minutes
- Brew, serve and store up to 943ml in the removable glass pitcher
- User friendly, soft-touch controls are easy to clean
- Dishwasher safe glass pitcher, lid and brewing basket

Brew fast. Sip slow.

Rice and grain cooking made simple

Smart features like 6 cooking programs and auto keep warm

KEEPS WARM FOR UP TO 10 HOURS

Reduces carbs and sugar up to 40%*

With CarbReduce™ Technology you can enjoy rice without sacrificing taste and texture

Sleek, compact design

Slim profile and matte finish look beautiful on your countertop

*CarbReduce results based on 2 cups (uncooked) of long grain white rice, long grain brown rice, short grain white rice, arborio rice and basmati rice varieties, using recommended cooking process and water ratio. Results may vary depending on batch quantity and rice variety used. A healthy lifestyle and balanced diet are both vital to one's wellbeing.

Instant Pot®

The Instant Pot just got even better. Experience the next generation of convenience and cook like a professional with the brand-new Instant Pot Pro. Perfect for the at-home chef, the Pro replaces 10 kitchen appliances!

Not only will you have a selection of the most essential meals at your fingertips with 28 in-built customisable one-touch cooking programmes, you can even save the function, time and temperature settings for your special recipes to one of the five favourites buttons. Now your most loved meals are just the touch of a button away!

20% faster pre-heating times*, the Instant Pot Pro comes to pressure quicker than ever, and its new intuitive timed venting reminders lets you know when to vent after timed natural pressure release.

Why Pro?

- Save the function, times and temperatures of your most loved recipes to one of five Favourites buttons for one-touch access
- Stainless steel inner pot with Easy-Grip silicone handles is suitable for use on all cooktops and is oven safe to 232°C
- Upgraded gentle steam release switch and auto sealing lid
- Intuitive timed venting reminder alert with 5 and 10 minute pre-sets lets you know when to vent after timed natural pressure release
- Easy to read large LCD display features a cooking progress bar
- PFOA/PTFE-free cooking
- 11+ built-in safety features including Overheat Protection, safe locking lid and more for added peace of mind
- Dishwasher safe multi-cooker lid, accessories and stainless steel inner pot for quick and easy clean up
- Includes an extra sealing ring and stainless steel steam rack with handles

Instant Pot

The Instant Pot® Duo Crisp™ + Air Fryer is the best of all possible worlds. With 11- in-1 functionality it does everything a regular Instant Pot does, but swap out the pressure cooker lid for the innovative air fryer lid, and you've got a whole new set of cooking techniques available — all fast, easy and at the touch of a button.

Quick, healthy, amazing: Pressure cooking and air frying both help you save time and cook healthy meals, while roasting and baking with the air fryer lid produces amazing results — without using a lot of energy or heating up your kitchen.

- **Guilt-free frying in your Instant Pot:** Get deep-fried taste and texture with little to no oil. EvenCrisp™ technology ensures tender juicy meals with a crisp, golden finish — every time. Now you can make perfect chicken wings, crispy french fries and onion rings, battered fried vegetables and more the healthy way.
- **Designed for convenience and ease:** Wet and dry cooking function buttons are grouped together on the control panel. Pick your cooking technique with the touch of a button. Clean up is easy too. Sleek surfaces wipe clean. And the pot, air fry basket, and broil (grill)/dehydrating tray are all dishwasher safe.
- **Clear simple controls:** The Smart Programs make it fun and easy for anyone — from novice to chef — to prepare great healthy meals fast. And the bright displays, easy-to-use controls and easy-to-read icons that indicate cooking status make selecting programs and making adjustments simple — even during cooking. Customise the time and temperature selects for total control and save your presets so your favourite meals can be made the way you like them.

Instant Vortex™ Slim
Air Fryer

Grill rack with
4 skewers

The Instant™ Vortex™ Slim Air Fryer is perfect for quick and delicious meals. With a more narrow profile, the Vortex Slim will free up space on your kitchen benchtop, and since this is our quietest air fryer, with Quiet Mark certification, you'll barely hear the air fryer fan running. EvenCrisp™ technology ensures you will get crispy, tender results every time. The size is perfect: big enough for growing families but compact enough to fit any size kitchen. Built-in smart features make it simple to use, with customisable programmes to air fry, roast, bake, grill and reheat easily, and features such as Overheat Protection™ for safety. Fast, versatile, and convenient, so you can make all your favourite fried foods with 95% less oil than deep frying and less mess.

- 5-in-1 functionality: air fry, roast, bake, grill and reheat in one appliance
- Uses up to 80% less energy than traditional electric ovens, saving on energy consumption and cost
- 20% slimmer than our standard Vortex 5.7L air fryer, for more benchtop and prep space
- Quiet Mark certified: Our #1 quietest air fryer for a quieter kitchen
- EvenCrisp™ Technology delivers all the crunch and tenderness of deep-frying with 95% less oil
- Adjustable cooking temperature from 49 to 205 °C
- Little-to-no preheating time, for frozen to golden in minutes
- Easy-to-use touchscreen display shows each stage of cooking
- Dishwasher-safe, non-stick air fryer basket and cooking tray are easy to clean
- Cooks up to 1.8kg of chicken or 900g of fries. Large enough capacity for growing families, side dishes, and meal prepping

Non Stick Cooking Tray

Non Stick Cooking Basket

This Instant™ Vortex™ Air Fryer is amazingly versatile, with VersaZone™ technology. Cook in a single 8.5L basket for large family meals, or switch to dual 4L baskets for two separate portions at the same time. SyncCook and SyncFinish automatically match settings for cooking or match the finish time between the two baskets. EvenCrisp™ air flow technology delivers crispy, tender results every time with 95% less oil compared to deep frying.

- 8-in-1 cooking: air fry, bake, roast, grill, reheat or dehydrate, SyncCook, SyncFinish
- VersaZone™ technology: cook in single 8.5L or dual 4L zones, with separate controls for each
- SyncCook: automatically cook two portions with the same settings
- SyncFinish: automatically finish cooking at the same time for two types of cooking
- EvenCrisp™ technology: the crunch and tenderness of deep-frying with 95% less oil
- Quick one-touch meals: 6 customizable cooking programs
- Little to no preheating: from frozen to golden in minutes
- Easy to use: step-by-step instructions show each stage of cooking
- Large capacity: cook up to 8 portions for large families, parties and meal prep
- Easy cleanup: dishwasher-safe non-stick cooking basket, cooking tray and basket divider

5.7L Air Fryer

6-in-1 Air Fryer

- ✓ Air Fry
- ✓ Roast
- ✓ Grill (Broil)
- ✓ Bake
- ✓ Reheat
- ✓ Dehydrate

Instant™

Designed to support your healthy lifestyle, this compact air fryer is easy to use and features an advanced microprocessor for perfect results every time. Enjoy the rich flavours and crispy textures of all your favourite deep-fried foods without all the oil and mess. No more straining and dumping used fryer oil—now you can use as little as 2 tablespoons of oil and get the same result. Sacrifice the calories, not the experience!

Easy to use, easy to clean, fast, versatile and convenient. Make all your family's fried favourites without the mess and guilt. Experience a world of flavour with the touch of a button.

- **Clean, Fast and Healthy Cooking:** Get deep fried flavour and perfectly crisp texture with 95% less oil for healthy and tasty versions of your favourites
- **Saves Time:** The Vortex Plus heats in a fraction of the time of a regular oven, and cooks by circulating super-hot air around your food, so it cooks faster and more thoroughly
- **Easy to Clean:** Premium Stainless-Steel exterior is easy to wipe clean. The Air Fry Basket and Cooking Tray are removable and dishwasher safe.
- **Large Capacity:** Air Fry Basket large enough to fit a 1.8kg chicken or a bag of fries
- **Easy to Use:** 6 one-touch Smart Cooking Programs

Instant™

Air Purifiers featuring Plasma Ion Technology

Removes 99.9% of virus
particles from treated air*

LIMITED STOCK

Inhale Cleaner Air. Exhale Peace of Mind.

Plasma Ion Technology and Triple Protection Filtration removes 99.9% of virus, bacteria and mould particles from treated air¹

True HEPA-13 filter captures 99.97% of dust, dander, pollen, allergens and other ultrafine impurities in the air

Antimicrobial coating prevents bacterial growth on the filter and protects it from degradation

Carbon filter layer helps reduce odours

FOOTNOTES:

* 1) Performance claims are calculated based on testing of a single particulate, A. Niger (mould), E. Coli (bacteria), S. Epidermidis (bacteria) or Phi-X174 (virus), under laboratory conditions following 1 hour of air purifier operation at the maximum fan speed and with Plasma Ion Technology on. Actual results may vary, depending on usage environment (temperature, humidity, room size and shape, nature and number of particulates in air, etc.), placement of the unit, and product usage (operation duration, operation mode, etc.). Best results with continuous use. An air purifier by itself does not protect against COVID-19. For more testing info, go to www.instantpot.com.au/air/testing 2) Sensors have a margin of error of +/- 20 micrograms per cubic metre in detecting changes in air quality. 3) Based on industry standards for removing 99.97% of ultrafine particles (0.3 microns) from the air in a room 5x per hour. 4) Efficacy in removing viruses and bacteria is reduced. 5) Filter has antimicrobial coating to prevent microbial growth and protect it from degradation.

Air Purifiers featuring Plasma Ion Technology

- Plasma Ion Technology and Triple Protection Filtration removes 99.97% of ultrafine airborne impurities, including allergens and pollen, and 99.9% of virus, bacteria and mould particles from treated air
- Plasma Ion Technology projects positive and negative ions into the air to target and neutralise airborne impurities and pollutants for cleaner air
- Features an advanced 3-in-1 filtration system:
- A true HEPA-13 filter captures 99.97% of dust, dander, pollen, allergens and other ultrafine impurities in the air
- A carbon filter layer in the filter helps reduce odours
- An antimicrobial coating prevents bacterial growth on the filter and protects it against degradation
- Intelligent sensors monitor air quality and adjusts fan speed automatically to work 24 hours a day, 7 days a week
- Starts delivering cleaner air in minutes and completely recycles the room's air five times per hour
- Auto mode adjusts fan speed up or down according to detected air quality
- Night mode senses the rooms lighting to turn off the display lights and the Plasma Ion generator, and reduces noise to whisper quiet levels.
