Glassware Edition
FEBRUARY 2025

CATALOGUE TERMS

Fully toughened

'Toughened' glassware involves heating the glass to very high temperatures then cooling it rapidly. This process renders the glass both shock and heat resistant.

Features and benefits

- More resistant to strong shocks, breakages and scratches
- Resistant to sudden heat changes and can be easily used in microwaves
- Excellent lifespan by means of durability
- Breaks into tiny, blunter pieces in the case of strong shock instead of sharper pieces
- Highly resistant to the effects of soapy water, acids and dishwasher use
- Less glass turnover, minimum need for replacement

Rim toughened

Rim 'toughened' glassware involves heating the rim to very high temperatures then cooling it rapidly. This process renders the rim both shock and heat resistant.

Crystal glass (lead-free)

For your more discerning customers, we now have a wider offer of Crystal glass (lead-free) drinkware.

The terms 'lead' and 'crystal' seem to be inextricably linked, with the clarity and resonance for which high grade crystal is renowned, attributed solely to its lead content. But now these qualities can be found in lead-free glassware.

A group of Italian scientists decided to tackle the manufacturing process without using lead, a much-maligned substance that has, however, proved safe in modern crystal products. The research team hit upon a recipe using fine sand, soda ash, lime and assorted minerals including calcium sulphate and aluminium hydrate as well as a number of secret ingredients. They heated these substances to a certain temperature for a specific period of time to produce a glass that rivals lead crystal in a number of ways.

- 'Crystal glass (lead-free)' combines the clarity or luminosity, normally associated with lead crystal with the ability to be blown in fine-drawn shapes
- It also has the exquisite clear and resonant ring of fine crystal
- Unlike lead crystal products, crystal glass (lead-free) is dishwasher safe

This development has created a third category in the market place, positioning 'crystal glass (lead-free)' in the middle to upper end with glass at the bottom and lead crystal at the top.

Luigi Bormioli and a selection of Bormioli Rocco products are characterised by a similar clarity and ring to that of lead crystal despite the absence of lead oxide. The bowls and stems are air blown in one piece and the emphasis is on providing a fine, high quality product without the cost of lead crystal.

REVOLUTION

DISTINCTIVE OPTIMISATION

Designed by star architect Prof. Wilhelm Holzbauer and wine expert Heinz Kammerer. The idea: The requirements for the glass are determined less by the individual grape variety, but rather by factors such as acidity, ripeness, tannin, viscosity and aroma of the wine.

ULTRA

SHORT AND GOOD

The stems of the ULTRA goblets were intentionally reduced in order to achieve a better handling. It is much easier to clean the glasses in dishwashers and to carry them on a tray though the low balance point. By maintaining the size of the goblets, the ULTRA glasses preserve the highest level of functionality and drinking enjoyment.

ATELIER

EMBODYING THE FINER THINGS IN LIFE

Luigi Bormioli
ITALY

Created in Italy by Luigi Bormioli, the Atelier stemless glass has been designed for superior aroma diffusion. It's a graceful glass with an angled bowl for added interest and more surface for refracting light through beverages. Created with the unique proprietary SON.hyx to strengthen and keep its ultra clear brilliance thru 4,000 dishwashing cycles.

BARTENDER

REMINISCENT OF THE RHYTHM OF JAZZ MUSIC

Bartender embodies refined vintage aesthetics, adorned with abstract and geometric motifs, showcasing orderly and harmonious textures reminiscent of the rhythm of Jazz music. Its laser-cut rim ensures thinness for a delicate touch, while the pulled stem enhances both elegance and durability, offering resistance against breakage.

AMBER

MULTI-FUNCTIONAL COLLECTION

The Amber range from Pasabahce is a multi-functional collection suitable for wine, water, beer, and cocktails. These modern and sleek designs not only add a contemporary touch to any bar or table setting, but they also offer practical advantages. These glasses boast a sturdier and more solid shape, making them less prone to breakage or damage in a glasswasher.
